

OUTLINE OF NAGASAKI UNIVERSITY 2021

Nagasaki University's Philosophy

Nagasaki University contributes to the improvement of a well-balanced society by transmitting its inheritance of the traditional culture rooted in Nagasaki, cultivating a fertile creative sense in students, and developing innovative science for world peace.

Fundamental Targets of the University

Nagasaki University, located in a region that geographically faces the Asian Continent across the East China Sea, possesses the history and memory of Dejima and is invested with a unique mission by the atomic bombing. To honor the special history and carry forward its mission, Nagasaki University seeks to develop new values and human resources with outstanding personal qualities capable of contributing to the sustainable development of a rapidly changing modern world and local community, on the basis of its unique features and tradition that have been nurtured for many years. For the promotion of bold innovations and reform under the leadership of the president, Nagasaki University has specifically set the following objectives for the Third Mid-term Target Period:

- (1) To become a world-class center of “global health” education and research that contributes to human health on a global scale through interdisciplinary integration of preventive medicine, health economics and other related areas, building on our outstanding achievements in the areas of tropical medicine, infectious diseases, and life sciences and radiation research.
- (2) To significantly improve the overall excellence of the entire university across all disciplines to establish a foundation for becoming one of the world’s best universities by promoting the sophistication and internationalization of every education and research area, enhancing the collaboration with top-level universities inside and outside Japan, reforming management, operational and personnel systems, and appropriately rearranging university resources.
- (3) To develop Nagasaki University-brand human resources who have both the ability to address local community issues and the ability to be active on the international stage where multiple cultures co-exist by promoting strategic and comprehensive educational reform for the realization of international-level education, internationalization of the campus, and a dramatic increase in the number of Japanese students studying abroad in order to respond to the needs of the globalizing society.
- (4) To develop, especially in undergraduate education, excellent and unique graduates capable of immediately responding to the issues they face based on the problem-solving ability, creative thinking ability, communication skills and other abilities expected of graduates as well as knowledge and excellence in their respective areas of expertise. To achieve this by organically integrating new student-participation-centered liberal arts education and world-standard specialized undergraduate education. Moreover, to proactively develop and introduce a new method to select new students to measure basic and versatile abilities and qualities in order to effectively connect the new university education with the reform of high school education.
- (5) To serve as the driving force of regional revitalization in the age of globalization as a community-based university by staying close to the needs of the community and providing the benefits of the results of education and research to the local administration, industry, health and medical services, education, and tourism. Moreover, to focus on and promote especially the education and research in the specific areas that will greatly contribute to the sustainable development of the community and get directly connected to global-scale issues, including marine energy, marine biotic resources, water environment, community welfare and medicine, and abolishment of nuclear weapons. Finally, to strengthen the collaboration with Fukushima that has been maintained since immediately after the Great East Japan Earthquake in order to contribute to the creation of the future for Fukushima.

Historical Sketch

The origin of Nagasaki University can be traced back to the time when Pompe van Meerdervoort, a medical officer of the Naval Training Center, started medical training in a room in the West Office of the Nagasaki Magistrate's Office in November 12, 1857.

1857. 11	• Medical Training started at the West Office of the Nagasaki Magistrate's Office.	5	• Training Center for Elementary School Teacher was renamed Nagasaki Prefectural Normal School.
1861. 9	• Yojosho (Sanatorium) was established (origin of Nagasaki University Hospital)	6	• Nagasaki Hospital Medical Training Center was established in Nagasaki Hospital to resume medical education.
	• Igakusho was built next to it. (Facilities for medical education institution were completed)	1877. 4	• Nagasaki Prefectural Normal School was renamed Kiyo Normal School.
1865	• Yojosho (Sanatorium) was renamed Seitokukan School of Medicine. In October, Bunseki Kyurijyo (educational institution to teach basic science including physics and chemistry) was established.	1878. 1	• Nagasaki Hospital Medical Training Center was renamed Nagasaki Medical School.
1868. 10	• Seitokukan School of Medicine was renamed the Nagasaki City School of Medicine.	2	• National Nagasaki Normal School was discontinued. Its buildings and equipment were transferred to Nagasaki Prefecture.
1869	• Nagasaki City School of Medicine was renamed Nagasaki Prefectural School of Medicine.	6	• Kiyo Normal School was renamed Nagasaki Normal School.
1871. 10	• The Ministry of Education held jurisdiction over Nagasaki Prefectural School of Medicine and changed its name to National Nagasaki Medical School.	1879. 1	• Nagasaki Medical School became prefectural and had Nagasaki Hospital become its affiliated school.
1874	• Due to troop deployment in Taiwan, education function of National Nagasaki Medical School was discontinued whereas hospital function was transferred to the branch hospital.	1883	• According to the Ordinance of the Ministry of Education, Nagasaki Medical School was designated as a Class A medical school. (Medical license could be granted after graduation without taking national examinations. Only 13 such schools existed in Japan.)
2	• National Nagasaki Normal School was established.	1884. 6	• Nagasaki Prefectural Women's Normal School was established.
3	• Nagasaki Elementary School Teacher Training Center was established.	1886. 4	• Nagasaki Prefectural Women's Normal School merged with Nagasaki Normal School and established its Women's Branch.
1875	• Due to the completion of troop deployment in Taiwan, buildings of the branch hospital were transferred to Nagasaki Prefecture. With a subsidy from the Japanese government, Nagasaki Hospital was established.	6	• Nagasaki Normal School, Women's Branch established its affiliated kindergarten.
2	• Nagasaki Elementary School Teacher Training Center was renamed Training Center.	6	• According to the Normal School Ordinance, Nagasaki Normal School was renamed Nagasaki Prefectural Normal School for Primary Education.

Nagasaki University Logo

Formal Logo

The formal logo was designed in 1949 to raise a sense of common bonds among university members and to provide moral support for them in developing as a university. A Dutch ship representing Nagasaki, the only door for the Western culture during the Period of Isolation, has the initial letters of Nagasaki University “N.U.” on its bow as well as the Chinese character “大學” meaning “university” at its right.

With its reorganization into a National University Corporation, the existing symbol mark was modified on April 1, 2005 to establish the formal university logo.

Informal Logo

The informal logo was designed on April 1, 2005 for use in a variety of more casual occasions.

The yellow line in the center stands for “Students and Faculty”, while the green line on the right is for the “Land Area of Japan and Its Territory” with its rich natural environment. The blue line on the left represents the “Vast Sea with the International Community” surrounding the “Land Area of Japan and Its Territory”.

The points where the lines intersect show “Harmony and Contribution” among the areas, and the yellow circles are meant to express “Creativity”.

Seen as a whole, the yellow line for the “Students and Faculty” and the green line for the “Land Area of Japan and Its Territory” form the inverted Chinese character of “Person”, while the yellow line and the blue line for the “Vast Sea with the International Community” configure “Person” again. All together the lines shape the letter “N” for Nagasaki University.
